

# Your last chance to apply! Our closing deadline is approaching.

## Sustainable Warmth Cumbria Grants

Do you, your family, friends or colleagues want to keep warm by installing Solar Panels, insulation or an Air Source Heat Pump but are worried about the up-front costs?

Is your main heating system 'off-gas' e.g. LPG, electric, coal or wood?

Do you want to reduce the country's reliance on importing expensive energy?

If your household income is below £30,000 (gross) and your home has a low energy performance you could be eligible for a government grant up to £25,000 towards insulation and low carbon heating measures, like heat pumps and Solar Panels.

This local authority led funding grant is even available for qualifying tenants of privately rented properties. The funding allows private landlords funding of up to £5,000, if their tenants are eligible.

So, if you are a homeowner or privately rent in Cumbria - apply for a Sustainable Warmth Grant today!

# Apply now!

## Sustainable Warmth Cumbria Grants

The scheme offers a wide range of free energy efficiency improvements including:

- Solid wall and cavity wall insulation, including insulation for rooms in roofs.
- Loft, Under Floor, Internal and External Insulation
- Air source heat pumps
- High heat retention electric storage heaters
- First time double glazing (replacement double glazing is not available)
- Solar Photo Voltaic (PV) Panels

**However, to make sure your home gets what it needs your Local Council has commission trained assessors to carry out a free survey of your home to let you know how we can help you.**

**To be eligible you'll need to:**

- Live in your property and either own your own home or, if you are a private tenant, we can work with you and your landlord to make the application and;
- Have a combined household income of less than £30,000 (gross) year OR someone in your home receives a means tested benefit and
- Have an EPC rating of E, F, or G. If you don't have an EPC, then we will arrange this for you if we think that your property is energy inefficient.

Find out more information about the scheme and to check your eligibility please visit [www.carlisle.gov.uk/sustainablewarmthcumbria](http://www.carlisle.gov.uk/sustainablewarmthcumbria) or contact your local council for further details.

Funding is limited and time-dependant so apply today!
